

# AVIATION SERVICES

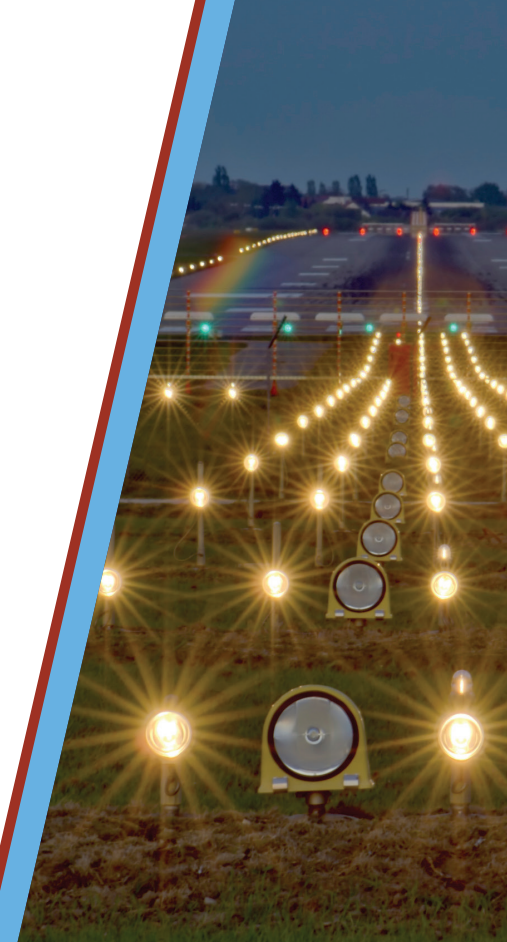

# AVIATION SERVICES TO HELP YOUR PROJECTS TAKE FLIGHT.

From general aviation to commercial-service hub airports, trust Hanson to meet your consulting needs. With personal attention from the early planning and environmental stages through design and construction, we partner with you to make your airport project a success.

## Your airport benefits from our long-term relationships.

The constant changes in aviation mean you need a firm that knows the industry and its governing agencies to help you implement current regulations and make adjustments based on market conditions.

Hanson provides an individual to serve as a client champion, giving your project the special focus it needs. Your client champion will understand your capital program and projects from start to finish. And together with the project team, they'll apply their knowledge of regulations and use their working relationships with the Federal Aviation Administration (FAA) and state aeronautics agencies to provide the services you require.

We tackle your challenges with comprehensive service.

Hanson has completed hundreds of airport projects, including airport layout and master plans, environmental services, land acquisition services, and design and construction services for projects ranging from apron expansions to new runways with associated NAVAIDS. Plus, with Hanson's experience in our other markets, we're equipped to handle all types of projects encountered in airport environs.

# Aviation Services

Hanson provides full-service project definition and implementation, including design-build, for:

## AIRPORTS

- pavements
- facilities
- infrastructure
- land acquisition
- tenant support

## SUPPORT AGENCIES

- FAA
- state DOTs
- local/regional agencies

## COMMUNITY
